Sales CRM - Agency Dashboard

Table of Contents

1. **Getting Started**
2. **Your Dashboard - Tracking Your Performance**
3. **Calling Leads - The Calling Queue**
4. **Managing Demo Requests**
5. **Client Handovers to the Dev Team**
6. **Pipeline Stages Explained**
7. **Notifications**
8. **Settings - Managing Your Account**
9. **Quick Reference**

1. Getting Started

1.1 Logging In

Open the CRM in your browser. On the login screen, enter your email address and password provided by your manager. Click "Sign In" to access the dashboard.

- Email: your email address (e.g. ashba@agency.com)
- Password: provided by your manager

After signing in, you will be automatically redirected to your personal Sales Rep Dashboard.

1.2 Navigation

The sidebar on the left (or the bottom navigation bar on mobile) gives you access to all features:

- Dashboard - Your personal performance overview
- Calling - The lead calling workspace
- Demo Requests - Manage client demo appointments
- Handovers - Handoff clients to the development team
- Settings - Update your password

On the sidebar, you will also see a Sun/Moon icon to toggle between light and dark mode, and a Sign Out button at the bottom.

TIP:

Use the sidebar to quickly switch between sections. The active page is highlighted in green.

2. Your Dashboard

Your Dashboard is your personal command center. It shows your performance at a glance:

2.1 KPI Cards (Top Row)

- Total Calls - How many calls you have made overall
- Success Rate (%) - Percentage of calls that resulted in a deal
- Deals Closed - Total number of deals you have closed
- Commission (\$) - Your total earned commission (20% of deal values)

2.2 My Pipeline Chart

A horizontal bar chart showing how many leads you have at each pipeline stage. This helps you visualize your sales funnel at a glance.

2.3 Pipeline Stage Cards

Below the chart, each pipeline stage is displayed as a card with the stage name, lead count, and a progress bar showing relative proportion of your total leads.

2.4 Recent Activity

A chronological list of your recent call activities showing the business name, the outcome status, and the date/time of each call.

TIP:

Check your dashboard every morning to see where you stand and plan your day.

3. Calling Leads

The Calling page is your main workspace for contacting leads. Unlike a simple queue that shows one lead at a time, you can now see ALL your assigned leads, choose which one to call, and view complete business details alongside the call interface.

3.1 Layout Overview

The Calling page has a split layout that adapts to your device:

- **Desktop (tablet or wider):** A lead list appears on the left sidebar. Click any lead to view their details and call interface.
- **Mobile (phone):** A horizontal scrollable row of lead pills appears at the top. Tap a pill to select that lead. Tap "All Leads" to open a full list in a bottom drawer.

The selected lead shows a status badge in the top-right header next to the call timer.

3.2 The Lead List (Choosing Who to Call)

The lead list shows all leads assigned to you, ordered by priority (uncalled leads first, then by most recent activity). Each entry displays:

- Business name and contact person
- A colored status dot (green = interested, amber = no answer, etc.)
- Number of previous calls made to this lead (if any)
- An arrow indicator on the currently selected lead

On mobile, tap "All Leads" to open the lead picker drawer from the bottom of the screen. This drawer shows the full list with status badges for easy scanning. Tap any lead to select it.

3.3 Lead Detail Card

When a lead is selected, a detail card shows all relevant information:

- **Phone Number:** Shown in large bold text with a formatted number. Tap the green "Call Now" button to initiate a phone call from your device's dialer. Use the copy button next to it to copy the number to your clipboard.
- **Email:** Shown as a clickable link that opens your email client.
- **Website:** Shown as a clickable link that opens in a new browser tab.
- **Deal Value:** If a deal value has been set, it is displayed with the commission percentage.
- **Created Date:** When this lead was added to the system.

Below the detail card, any existing notes for the lead are displayed. On mobile, you can also see a "Switch Lead" horizontal scroll section for quick navigation.

3.4 Call Timer

A timer in the header starts when you select a lead. It shows minutes:seconds and changes color:

- Green: Under 30 seconds (quick call)
- Amber: 30 seconds to 2 minutes
- Red: Over 2 minutes

The timer resets when you switch to a different lead.

3.5 Logging an Outcome (Desktop)

On desktop, the outcome buttons are shown directly below the lead detail card in a grid:

- No Answer - The lead did not answer (will reappear for follow-up)
- Not Interested - The lead declined
- Interested - The lead showed interest (prompt to schedule a demo)
- Pitching - You are actively pitching to this lead
- Demo Scheduled - A demo has been booked
- Negotiation - Price and terms being negotiated

Below the grid, a "Deal Closed" button opens a deal value input. Enter the amount and confirm. Your 20% commission is calculated automatically.

A notes textarea below the buttons lets you record call details before saving.

3.6 Logging an Outcome (Mobile)

On mobile, a sticky "Log Outcome" button sits at the bottom of the screen. Tap it to open a bottom drawer with all outcome options:

- Six outcome buttons arranged in a 2-column grid
- A full-width "Deal Closed" button at the bottom of the grid
- A notes textarea and a "Save Outcome" button

The outcome drawer slides up from the bottom of the screen and can be dismissed by tapping outside it or pressing the Escape key.

3.7 Closing a Deal

When a lead agrees to purchase, select "Deal Closed". Enter the deal amount and confirm. Your 20% commission is calculated automatically. A confetti animation celebrates the closed deal!

3.8 Notes

Notes help you remember important details about each call. On desktop, the notes textarea is shown alongside the outcome buttons. On mobile, it appears inside the outcome drawer. Notes are saved with the call log and can be reviewed later.

3.9 Call Info Badges

Below the lead detail card, small badges show useful statistics:

- **Call count:** How many times this lead has been called
- **Last call time:** How long ago the last call was (e.g. "2h ago", "3d ago")

3.10 Empty State

When you have no assigned leads, a clean "All Caught Up!" message is displayed with a checkmark icon. Leads appear here as soon as your manager assigns them to you.

PRO TIP:

Always add notes to your calls. Good notes help your manager and the dev team understand the client's needs.

4. Managing Demo Requests

When a lead is interested, you can schedule a product demo for them. The Demo Requests page lets you create, track, and manage all demo appointments.

4.1 Creating a Demo Request

- Click the "New Demo Request" button
- Select the client from the dropdown (shows active leads only)
- Enter a Demo Title (e.g. "Walkthrough - SEO Package")
- Add a Description of what the demo will cover
- Set a Scheduled Date and Time using the datetime picker
- Add any Notes
- Click "Create Demo Request"

When you create a demo request, the lead's status automatically advances to "Demo Scheduled".

4.2 Managing Demo Statuses

Each demo request has a status that you can update:

- Pending (amber) - Newly created, not yet scheduled
- Scheduled (blue) - A date/time has been set
- Completed (green) - The demo took place successfully
- Cancelled (red) - The demo was cancelled

4.3 Updating Demo Status

From the demo list, use the action buttons next to each demo:

- Pending -> Click "Schedule" to set a date, or "Cancel" to cancel
- Scheduled -> Click "Mark Completed" once the demo is done

When you mark a demo as completed, the lead's status advances to "Demo Completed" automatically.

TIP:

Always set a scheduled date when creating a demo. This helps everyone stay organized.

5. Client Handovers

When a client is ready to start work, you hand them over to the development team. The Handovers page manages this transition.

5.1 Creating a Handover

- Click the "New Handover" button
- Select the client (only eligible clients are shown)
- Fill in the handover details:
 - Client Brief - Summary of the client and their needs
 - Technical Requirements - What the dev team needs to build
 - Design Preferences - Visual style, branding, references
 - Timeline Notes - Deadlines and milestones
 - Budget - The agreed budget amount
 - Additional Notes - Anything else the dev team should know
- Click "Handover to Dev Team" to submit

When a handover is created, the lead status automatically advances to "In Progress". The system prevents duplicate handovers for the same client.

5.2 Eligible Clients

Only clients at specific stages can be handed over: Onboarding, Deposit Paid, Negotiation, Interested, or Demo Completed.

5.3 Handover List

Your handovers are listed as cards showing: client name, status (Pending/Completed), client brief, requirements, budget, timeline notes, and creation date.

REMINDER:

A good handover makes the dev team's job easier. Include as much detail as possible.

6. Pipeline Stages Explained

Each lead progresses through a series of stages in your sales pipeline. Here is the complete journey from start to finish:

- | | |
|--------------------------|--|
| 1. Uncalled | - New lead assigned to you, not yet contacted |
| 2. No Answer | - You called but the lead did not answer |
| 3. Not Interested | - The lead declined your offer |
| 4. Interested | - The lead showed interest - next step is a demo |
| 5. Pitching | - You are actively pitching to this lead |
| 6. Demo Scheduled | - A demo appointment has been booked |
| 7. Demo Completed | - The demo has taken place |
| 8. Negotiation | - Price and terms are being negotiated |
| 9. Onboarding | - The client is being onboarded |
| 10. Deposit Paid | - The client has paid a deposit |
| 11. In Progress | - The project is in progress (post-handover) |
| 12. Deal Closed! | - Congratulations! The deal is closed and commission is earned |

Commission

When a deal is closed, you earn 20% commission on the deal value. The commission is calculated automatically when you mark a deal as closed in the Calling View.

7. Notifications

The notification system keeps you informed about important events. Look for the bell icon in the top bar (desktop) or mobile header.

- A red badge on the bell shows your unread count (max "9+")
- Click the bell to open the notification dropdown
- Click "Mark all read" to clear all notifications
- Click individual notifications to mark them as read

You will receive notifications for:

- New leads assigned to you
- Demo created, scheduled, or completed
- Handover created or completed
- Deal closed

The system checks for new notifications every 30 seconds automatically.

8. Settings - Managing Your Account

The Settings page lets you view your profile information and change your password.

8.1 Profile

Displays your name, email address, and role (Sales Rep). This information is read-only.

8.2 Changing Your Password

- Enter your current password
- Enter your new password (minimum 8 characters)
- Confirm your new password
- Click "Change Password"

Your password must be at least 8 characters long and include uppercase, lowercase, and a number.

SECURITY:

Change your password regularly. Never share your password with anyone.

9. Quick Reference

Key Shortcuts & Tips

- Check your Dashboard first thing every day
- Always take notes during calls - they help everyone
- Interested lead? Create a demo right away (use the banner CTA in Calling View)
- Handover ready? Include full detail: brief, requirements, design, budget, timeline
- Use the copy phone button to quickly dial from your phone
- Toggle dark/light mode with the Sun/Moon icon in the sidebar

Lead Status Flow

Uncalled -> Calling -> Interested -> Demo Scheduled -> Demo Completed -> Handover -> In Progress -> Deal Closed

Commission Structure

20% of deal value, automatically calculated when you close a deal.
